1	Was a great Professor, he taught very hands on and explained everything very thoroughly.
2	Truly a great class, I really enjoyed having Ethan as a professor he does an amazing job breaking it down, and teaches how we would actually teach in a PE setting. Ethan is one of the best professors I've had I really learned a lot from him and his class. He does an amazing job taking things slow so we can really get a good understanding on the material if we aren't too familiar with it already.
3	This class has taught me a lot about PE instruction and how to properly set my lesson plans, while also keeping the class engaging. Would love to have Ethan Pettengill as an instructor again to learn more about his experiences.
4	This class was very engaging, fun, and helpful to learn how to teach future lessons.
5	One of the best professors I have had here. He made the course very engaging and easy to follow. He had an organized plan every class and we didn't just sit there and do nothing. Would take every class with him if I could.
6	Learned a lot from this class and had fun every single class. Thank you Ethan.
7	Great Instructor, explains concepts very well.
8	Good class, I enjoyed it! Ethan was a good teacher!
9	Ethan went out of his way to assist me with not only Team Sport questions, but also general questions about my major, and put me on a better path to continue and excel in my Physical Education career.
10	Ethan was a really good professor and I enjoyed going to his class and having him as my professor.
11	Ethan is a great professor and I learned a great deal from his course

1	no
2	This class was a lot of fun!
3	The class was always engaging and entertaining. The information taught throughout the class was very helpful for a student wanting to learn proper teaching ways and responsibilities.
4	Professor Pettingill, is a great professor. He is fair and respectful to all students. Having taken this class and being unrightfully failed I can tell you this is the definitive version of the class to take.
5	I thought that there was an amazing balance between doing activities and explaining why these things should be done. Everything was very purposeful.
6	I really liked that at the end of units we were given the lesson plans to then look back at or even use in the future. Even let known that a lesson that was created would fit one group better than others.
7	I had a great semester in this class. I learned a bunch of little warm up and games to use in the future for younger or older grades.
8	Great class, great feedback and overall good environment to learn in. Very inclusive and relatable and one of my favorite teachers.
9	Great Professor
10	Ethan was awesome to have as a professor. He is enthusiastic every day and taught me skills in class that will prepare me to teach when I get out of college.

1	great class, great teacher. The only thing is that the assignments are a lot to complete to meet his expectations. Also, the days where class was cancelled felt like we got more work due to the alternative assignments. the content when completing the journals was difficult to find. Overall, great class with a respectable level of forgiveness, but i think the assignments area lot considering this is a 1 credit course.
2	This class was extremely helpful in my journey to becoming a physical educator. With a wide variety of skill learning and giving me plenty of activities to eventually use in my own classes made this class great. Professor Pettengill is also an extremely good professor that made each class exciting and educational.
3	Thank you for an amazing semester, I really enjoyed having you back to back on Tuesday and Thursdays! See you in Raquette Lake!
4	Love Ethan as a professor but wayyy too many journals.
5	I think that Professor Ethan genuinely cares about his students and the course. Although, I do wish that it was more clear in class of what stage of group development we are in during the activities because I find myself second guessing it on the journal assignments.
6	I loved this class so much!! I would totally ta for this class, if I could!!
7	Great teacher!! Really understands the students and has such a great energy level that makes the students feel comfortable around him.
8	Great course led by a great professor.
9	Ethan was a great professor to have, and I enjoyed his class.
10	Ethan is Energetic in class engages in activities in demonstration and is constantly teaching with real life situations.
11	Ethan Pettengill is a great teacher to take for Adventure Activities. I would 100% recommend. Class was never boring and all the activities done in class were great, engaging, and had a purpose helping us students improve in Phys Ed.
12	Ethan Pettengill was an amazing teacher, I had the pleasure of having Ethan as my professor for 2 classes.
13	Coming into this class I was worried because of the fact I did not know anyone. You did a great job of getting everyone comfortable in the class and meeting new people and their names.
14	Amazing class with a great instructor!

1	great teacher ethan is amazing!
2	This was a good course and Ethan was a good teacher!
3	This class was great because since everyday we are interacting with other students, we get to know people in the school and make friends
4	Professor Pettengill provides an inclusive learning environment for all by having different kinds of equipment, provides supportive feedback, and is always their to cater for students learning needs and requirements. Great professor to learn from!
5	I very much enjoyed everything about this class, to the way it was taught and Ethan who taught it. I have so many new activities I want to try when I become a teacher. Ethan was so passionate about what he does and it made the environment so easy to be in.
6	I really enjoyed having Professor Pettengil. Adventure activities was alot of fun and he made it that way. The only thing I would have to critique was making the journals not due the same day that we have class. If they were due the same day we have class it would be a lot easier to remember the activities and different variations taught to us.
7	I had a great time in the class everyday. I thought it got me and other students in our class out of out comfort zones in fun and engaging ways.
8	Ethan ran one of my favorite classes to attend since being here. Ethan always was open to questions and was very supportive and responsive when you had questions.
9	Ethan is a very understanding person who makes a connection with their students. He is a great professor and you will learn a lot of useful things that I see myself using in future physical education classes.

2	none
3	fun experience as a non phys ed major
4	You were extremely nice and taught me well! You're always postive even when you struggles
5	Very good Teacher. Interactive and keeps us occupied the whole class with fun and learning.
6	This course was 100% my favorite course of this semester, not because it is laid back and "easy" but because I really enjoyed how the professor taught us meaningful lessons we will remember and take with us when we begin teaching. Giving feedback and understanding the way to teach certain sports is much more beneficial to me than just knowing the game. Ethan provided multiple sources and guides on how to do everything!
7	I really enjoyed the class.
8	Awesome teacher and one of the friendliest I've ever had!

1	loved this class and Ethan
2	cool guy, fun class
3	The professor was very respectful and engaging, the teaching methods and materials met my needs, and the class was straightforward to follow. My knowledge of the subject, and I would definitely take this course again.
4	Thank you for an amazing semester, I really enjoyed having you back to back on Tuesday and Thursdays! See you in Raquette Lake!
5	My favorite class, very good teaching and demonstrations, all good and fun games to learn for the future.
6	I think Ethan really did a great job with this class his actions were so easy to follow and his instructions were very clear. He mad me a better athlete in this class as well overall he is a great teacher and this class benefited my education.
7	I really enjoyed this class and Ethan was a really good professor. He kept us engaged in everything and I felt like i learned a lot about the topics he taught us. I plan to TA for his class in the future. If I had the opportunity to take another class with him I 100% would.
8	Great class taught by a great professor.
