

To Whom It May Concern,

I am pleased to recommend professor Pettengill based on my experience as both his student and his teaching assistant. Having had the opportunity to learn from him as a student and later work alongside him as a TA, I have been able to see first-hand his commitment to his students and to the field of higher education.

Professor Pettengill creates a positive and engaging learning environment while maintaining high expectations for his students. He is knowledgeable, approachable, and invested in helping students develop both academically and professionally. As a TA, I especially appreciated the opportunity to work with him and gain insight into effective teaching strategies, communication, and mentorship.

My experiences with professor Pettengill have had a positive impact on my own development as a future educator, and I am confident he will continue to do the same for other students. I highly recommend him without any hesitation.

Sincerely,

Gavin Roberts

SUNY Cortland Teacher Candidate
